

BISHOP BROWN FAVORS DROPPING WORD "OBEY"

Proposed Change Would Strike Part of Vow From Episcopal Marriage Service.

OTHER INNOVATIONS PLANNED

Committee on Revision of Book of Common Prayer to Make Report of Recommendations at Detroit Convention in October.

Women of Episcopal faith will not be sworn to "obey" their husbands, as has been the age-old custom, when they take the marriage vows at the altar. If the change in regulations recommended by the commission on revision, of which Bishop William Cabell Brown, of Virginia, is a member, are adopted at the convention of the Episcopal church in Detroit next October, brides will continue to be required to "love" and "honor" their other—not necessarily better—halves, but times are changed, the Bishop says, and the fair sex should stand on the same footing with the masculine gender.

"The word 'obey' will undoubtedly be dropped," the Bishop said yesterday in discussing the proposed changes in the Book of Common Prayer. "While there is no objection to the word, if understood in the proper way, the trend of the times is that the man and wife should stand on the same footing."

No Occasion for Alarm.

That there is no occasion for alarm in the changes which will be recommended in the Book of Common Prayer, when the commission on revision makes its report at the Detroit convention, is the statement of the Bishop. "I approve, generally speaking, of all the changes looking toward greater flexibility and adaptability in the ritual of the church," he said yesterday. "I expect to strenuously oppose any changes that look to the past, but I am not at all alarmed at the changes which will be recommended. It is to make the Book of Common Prayer as usable as possible, so that it may be as equally adapted to the church forms as to mountain missions and services among colored people."

One Baptismal Service.

One of the most valuable recommendations which will be made by the commission, according to Bishop Brown, is in going away with the three baptismal services and substituting one service only and in shortening materially long exhortations.

Another useful change to be suggested is in providing for the burial service which is more or less abrupt as it now stands.

There is no question but what the Prayer Book will be greatly improved by some of the suggested changes. Bishop Brown went on to say: "A great many prayers have been added to be used at the discretion of the minister, and one of the most interesting features are various short services, added at the end of the report and not to be included in the Prayer Book, as yet, which can be used in place of morning and evening prayer, especially the latter, with the permission of the Bishop, to give greater variety to the service."

"The psalter is changed very slightly, obsolete words and obvious mistranslations are corrected and only portions of the imprecatory psalms read."

But in mind, however, that these changes are not to be regarded as revolutionary, but permissible, and I think the Church is quite wise enough to accept or reject them in which might prove objectionable.

So many important matters besides the report of the commission on revision of the Book of Common Prayer will come up in the convention that I am not sure that only a small part of the report will be considered at this time. There is certainly no occasion to be needlessly alarmed, since it may be a matter of only twelve years before the actual revision of the Book of Common Prayer becomes an accomplished fact."

Silos Deliver Jags, So Hobos Rejoice

(By Universal Service.)

MILLHARPE, CAL., August 23.—The big silos which are used for storing hay and grain have been converted into near-districts, according to word brought here by the managers of several of the large dairy ranches.

The silos have proven a source of supply for "hard" liquor for wandering tramps. The fluid has a real "kick" in it due to the fermentation of the grain. The liquid seeps through the cracks and hoboos sizzle it to their hearts' content.

Jesse Robb, manager of a big dairy ranch near this place, says used to find shelter in the silos and mysteriously getting drunk. He finally traced the source of supply to the silos. He says that the water poured in at the top and trickled slowly through the cracks, causing the fermentation that produced a lively "kick," out of which his unruly guests got "results."

CIGARMAKERS ACCEPT INCREASE OF 15 PER CENT

Tampa Workers Vote 2,047 for and 252 Against Return to Work.

(By Associated Press.)
TAMPA, FLA., August 23.—The cigarmakers' equalization committee at 4 o'clock this morning dashed counting the votes on the proposition from the manufacturers to grant a 15 per cent increase. The vote was 2,047 in favor of and 252 against, and the men will go back to work Monday.

On July 29, when they voted to strike, more than 7,400 took part in the referendum. The proposition to allow a 15 per cent raise was made about a week ago and was so generally acceptable that the interest was taken in the vote.

The cigarmakers refused to vote on it until that is known as the "dependencies"—other workers in the factories, strippers, binders, etc.—had agreed to a similar increase.

About 12,000 workers in all were affected.

THREATEN GENERAL STRIKE

Electric Subsidiary of New Haven Road May Involve Whole System.

NEW YORK, August 23.—A threat to call a general strike on the New York, New Haven and Hartford Railroad if nonunion men are employed to replace striking motormen and conductors on the New York, Boston and Westchester Railroad, an electric subsidiary of the New Haven, was made today by officials of the Brotherhood of Locomotive Engineers and the Brotherhood of Railway Trainmen.

The company advertised to hire to replace the strikers. The railroad has been tied up since Thursday.

A 25 per cent wage increase was granted recently and the men struck for 30 per cent. The motormen asserted they were entitled to as much as engineers on steam roads.

RAISIN PRICES DOUBLED

California Concern Controlling Output Marks Up Figures 100 Per Cent.

FRESNO, CAL., August 23.—Increases of approximately 100 per cent in the prices of raisins were announced today by the directors of the California Raisin Association. Prices of individual grades of raisins to the producer were set at 10, 11 and 12 cents a pound, respectively, for Muscats, Sultanas and Thompsons. Last year they were 5½, 6½ and 6½ cents.

A. C. KRUPAR IS WOUNDED DURING SIBERIAN BATTLE

John Marshall High School Instructor Reported Seriously Hurt in Cablegram.

SERVING AS "Y" SECRETARY

Richmond Teacher Has Been With Kolchak Forces for Many Months. Family of Wife and Three Children Live in Chesterfield.

Anthony C. Krupar, former member of the John Marshall High School faculty, has been seriously wounded while serving as a Y. M. C. A. worker with the Kolchak Czech-Slovak forces, according to a cable message received from overseas Saturday. Mr. Krupar, it was stated in the message which was addressed to war-work headquarters of the Y. M. C. A. in New York, was wounded in a battle at Pokranishny, Siberia, on August 12. Although his wounds are serious, the cable indicated he would recover.

Five other Y. M. C. A. secretaries were under fire with Krupar, according to the report, but none of these were seriously injured. Mr. Krupar's wife and three children are now living in Chesterfield County on the Krupar Farm. The Y. M. C. A. worker had served as instructor in printing at John Marshall High School for two years before taking service with the war workers. He left Richmond in October, 1917, and has been in the territory where he was wounded since December of 1918.

Details of the encounter in which Mr. Krupar was wounded were not made known in the message to New York from abroad. But it was stated that there was every chance for the recovery of the injured man. Mr. Krupar is one of the twenty-six members of Richmond Typographical Union who rendered service to their country in the great struggle of civilization against the Hun. All of these men except three—Mr. Krupar, J. C. Weckert and W. E. Warriner, have received their discharges from the army.

Pershing Will Sail on Leviathan.

WASHINGTON, August 23.—Because of the delay in the arrival of the transport Mount Vernon at Brest, General Pershing will return home on the Leviathan. His cablegram to the War Department today from Paris said the date of his sailing, September 1, would be unchanged.

ARMY SUPPLIES HELD UP BY STRIKE OF TRAINMEN

Demand Made for Removal From Service of Officers Who Made Up Trains.

LOS ANGELES, August 23.—Forty carloads of army supplies, bound for troops on the border, were held in the local freight yards today on account of the strike of trainmen on the Southern Pacific, Atchafson, Topeka and Santa Fe and the Los Angeles and Salt Lake Railroads.

The written statement of demands presented by the switchmen to officials of the railroads affected disclosed that among them was the following: "The officers of three companies who throw switches and made up trains must be removed from the service."

WILL ASK RESTITUTION

Germany to Be Called on to Settle With Jugo-Slavs for Damage to Mines.

(By Associated Press.)

PARIS, August 23.—The supreme council has decided to send two more notes to the German delegation at Versailles. The first will ask that restitution be made to the Jugo-Slav government for the Constalitz mines seized by Germans during the war and exploited.

The second will acknowledge a message expressing the intention of the German government to hand over to the allies documents relative to damages done in invaded territories, especially those arising from requisitions. The second note will make it clear there can be no discussion of the treaty of peace with Germany.

Lazy Life During Hot Months Causes Lazy Liver

At no other time is the girl so constant a companion of her mother as when she is emerging into womanhood. There are so many questions to ask; so much she needs to know.

And school is over. Here is now a lazy, inactive, carefree life. No wonder she is not always as lively and as well as she should be at her age. Let the mother inquire if the bowels are functioning properly, for there lies the basis of good and poor health.

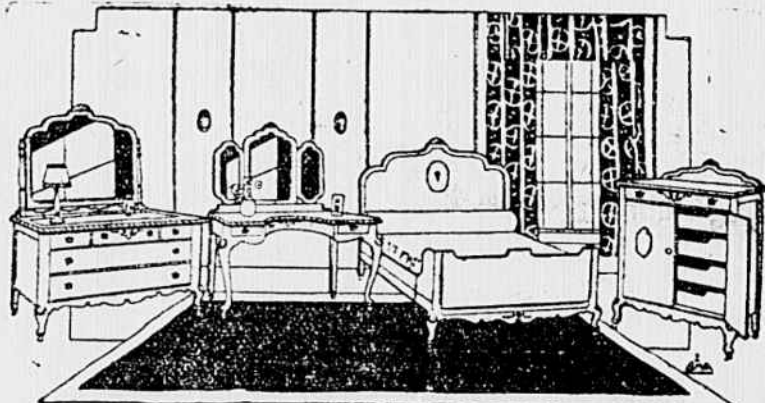

It will usually be found that a laxative is needed, and none will give safer and quicker relief than Dr. Caldwell's Syrup Pepsin which is just

a combination of simple laxative herbs with pepsin. Taken tonight, it acts freely and pleasantly in the morning. The head is again clear, the body light. There is renewed interest in life.

A dose of Syrup Pepsin now and then is almost a necessity for everyone in hot weather. A bottle can be bought at any drug store for 50c and \$1, the latter being the family size, or a free trial bottle can be had by sending your address to Dr. W. B. Caldwell, 480 Washington St., Monticello, Ill.

Famous Actress Tells How She Uses Derwillo To Beautify Her Complexion

MISS ETHEL CLAYTON.

New York—Miss Ethel Clayton, the clever young actress now successfully starring under the Paramount banner, is famous for her beautiful complexion. When her friends inquired about it she said, "It's all due to a toilet preparation called derwillo which I use twice daily. The experience I have had prompts me to make my secret public. I went to the toilet counter of a well-known beauty specialist, was interviewed in reference to Miss Clayton's remarkable complexion, stated: 'Any one can have beautiful complexion when they know how. It's a very simple process. I use the same article in my work, and many young try to get have no idea of the marvelous results. The very first application will astonish you. Go to the toilet counter of any drug or department store and get a bottle of derwillo, then make the following test: Examine your skin carefully before you try derwillo. Note its appearance, then apply derwillo as directed. After you have made the first application look in your mirror again and note the surprising change. A peach-like color mounts the cheeks; a baby softness comes to

the skin; it makes the skin rosy-white, velvety and radiantly beautiful. It is wonderful for a dark, sallow skin, shiny nose, freckles, tan, oily skin, spots, coarse pores, pimples, blackheads, chapped, rough skin, ruddiness, wrinkles and many other facial blemishes. Derwillo method is absolutely harmless and will not produce or stimulate a growth of hair. It is superior to face powder, as perspiration does not affect it, therefore it stays better. Thousands who have used it have had the same results as Miss Clayton, and I am sure if you will give it a fair trial you will become just as enthusiastic as I am and always use it in preference to any other powder or beautifier."

NOTE—When asked about Derwillo one of our leading druggists said, "It is truly a wonderful beautifier, away ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to any one who is dissatisfied, and we would not permit the use of our name unless the product possessed unusual merit." It is sold in this city under an iron-clad money back guarantee by all department stores and up-to-date druggists, including the Triangle, the Grant and the Polk Miller Drug Co.—Adv.
